AND

Ecology Regional Office Central Region

1-509-575-2490

AND

911

To the best of your ability please provide the following information:

Where is the spill?

What spilled?

How much spilled?

How concentrated is the spilled material?

Who spilled the material?

Is anyone cleaning up the spill?

Are there resource damages (e.g. dead fish or oiled birds)?

Who is reporting the spill?

How can we get back to you?
